

Great value and excellent quality Pri Metula LTD.

COLD STORAGE & PACKING HOUSE

Refrigeration, Packaging and Marketing

From the northern hills and valleys of the Metula region, where the soil is fertile, the water fresh and the air unpolluted, the Metula Fruit company offers you an abundantly rich assortment of quality fruit!

Since its establishment in 1971 by farmers of the region, Metula Fruit has marketed about eighty tons of fruit per day in Israel, to our customers. Metula Fruit's customers are given personal attention and comprehensive access to all information, order processing, delivery status and invoices.

We assure strict adherence to quality: Metula Fruit provides uncompromising personal service to their customers.

Our fruit and packaging abide by the T.I. 9001 (ISO 9001), 2008 edition for quality management, the B.R.C. Global System for sorting, packaging and cooling, food safety and the marking of organic agricultural produce, and Metula Fruit complies with the Global G.A.P. standard ensuring that the fruit the customer receives, is grown in conditions that do not harm the environment.

Agricultural production in this region includes around 2,300 acres (9,000 dunams) of a variety of fruit including apples, pears, peaches, nectarines, plums, apricots, pomegranates, kiwis, persimmons, pecans, avocados and citrus fruit. Development and expansion of species of fruit with modern planting techniques, healthy pest control solutions all are responsible for the excellent quality of fruit grown in this region.

Metula Fruit is a very flexible company, and we are available to respond to your requirements too!

Our global export includes delivery to your country.
